Pages 1 to 4

<p style="text-align: right;">Page 17</p> <p>1 MALHOTRA</p> <p>2 <b>A. That is correct.</b></p> <p>3 Q. And what period of time have you been</p> <p>4 doing that?</p> <p>5 <b>A. One of them has been over a year. One</b></p> <p>6 <b>of them has been in the last, I would say, six</b></p> <p>7 <b>months.</b></p> <p>8 Q. Before you started your forecasting work</p> <p>9 for Detroit, you didn't have any experience doing</p> <p>10 a forecast for a city; correct?</p> <p>11 <b>A. We did it for Detroit Public Schools,</b></p> <p>12 <b>which was another large government sector --</b></p> <p>13 <b>public sector entity. We did not do it for a</b></p> <p>14 <b>city.</b></p> <p>15 Q. Okay. So before your work for the City</p> <p>16 of Detroit, you had never done forecasting for a</p> <p>17 city specifically; correct?</p> <p>18 <b>A. Most of the -- that is correct.</b></p> <p>19 Q. You're not holding yourself out as an</p> <p>20 expert on Chapter 9 bankruptcy, are you?</p> <p>21 <b>A. No, I'm not.</b></p> <p>22 Q. This is the first Chapter 9 bankruptcy</p> <p>23 you've worked on; correct?</p> <p>24 <b>A. Yes, it is.</b></p> <p>25 Q. And you'd agree with me that Chapter 9</p>	<p style="text-align: right;">Page 19</p> <p>1 MALHOTRA</p> <p>2 Q. You're not holding yourself out as an</p> <p>3 expert in risk management or insurance; correct?</p> <p>4 <b>A. Again, I'll ask the same question: Risk</b></p> <p>5 <b>management, insurance for what? Because all of</b></p> <p>6 <b>these points have specific implications on the</b></p> <p>7 <b>City of Detroit and the financial analysis and</b></p> <p>8 <b>forecasts for the City of Detroit.</b></p> <p>9 Q. Okay. Well, I mean, you've never done</p> <p>10 any work in the area of risk management, have you?</p> <p>11 <b>A. I've looked at a lot of the expenses</b></p> <p>12 <b>that the City of Detroit has been spending on risk</b></p> <p>13 <b>management insurance claims over the last three</b></p> <p>14 <b>years. So I understand where the City has been</b></p> <p>15 <b>spending that money.</b></p> <p>16 Q. Okay. Before your work for the City,</p> <p>17 you didn't -- you hadn't done any work on risk</p> <p>18 management; is that correct?</p> <p>19 <b>A. No. When it comes to specific other</b></p> <p>20 <b>clients and you see where they are spending more</b></p> <p>21 <b>and if risk management is -- or self-paying,</b></p> <p>22 <b>self-insurance claims is a big component, you have</b></p> <p>23 <b>to analyze those costs. So I have looked at them</b></p> <p>24 <b>in specific instances where claims are a large</b></p> <p>25 <b>part of a spend.</b></p>
<p style="text-align: right;">Page 18</p> <p>1 MALHOTRA</p> <p>2 bankruptcy is extremely rare?</p> <p>3 <b>A. I don't want to comment on that.</b></p> <p>4 Q. You're not going to answer that</p> <p>5 question?</p> <p>6 <b>A. Rare in context of what? Is it in</b></p> <p>7 <b>context of Chapter 11 or is it in context to other</b></p> <p>8 <b>bankruptcies? So you have to give me a relative</b></p> <p>9 <b>point to answer that question.</b></p> <p>10 Q. It's very rare for a city -- out of all</p> <p>11 the cities in the United States, it's very rare</p> <p>12 for a city to have entered into a Chapter 9;</p> <p>13 right?</p> <p>14 <b>A. Well, there are different state laws</b></p> <p>15 <b>that impact the ability of cities to enter</b></p> <p>16 <b>Chapter 9 or not. But I would say Chapter 9s are</b></p> <p>17 <b>less common than Chapter 11s. I mean, I'm</b></p> <p>18 <b>comfortable saying that.</b></p> <p>19 Q. Okay. And it would be a minute fraction</p> <p>20 of cities that ever have entered Chapter 9;</p> <p>21 correct?</p> <p>22 <b>A. I don't understand minute or not. But I</b></p> <p>23 <b>think the number of Chapter 9 filings is limited</b></p> <p>24 <b>relative to Chapter 11 filings. I'm comfortable</b></p> <p>25 <b>saying that.</b></p>	<p style="text-align: right;">Page 20</p> <p>1 MALHOTRA</p> <p>2 <b>But I -- so all I'm asking is, are you</b></p> <p>3 <b>asking the question in the context of Detroit or</b></p> <p>4 <b>just risk management?</b></p> <p>5 Q. Risk management in general. You</p> <p>6 wouldn't hold yourself out as an expert in that;</p> <p>7 correct?</p> <p>8 <b>A. I would -- I could only talk about the</b></p> <p>9 <b>risk management and insurance claims for the City</b></p> <p>10 <b>of Detroit. That's what I would -- that's what I</b></p> <p>11 <b>would be comfortable talking about.</b></p> <p>12 Q. Were you involved in putting -- were</p> <p>13 there some forecasts with the creditor proposal</p> <p>14 that accompanied that?</p> <p>15 <b>A. Which creditor proposal?</b></p> <p>16 Q. The one in, I think -- guess it was</p> <p>17 2013, before the bankruptcy.</p> <p>18 <b>A. Yes, there were forecasts, and we were a</b></p> <p>19 <b>part of pulling those together.</b></p> <p>20 Q. And that was my question.</p> <p>21 <b>A. Thank you for the clarification.</b></p> <p>22 Q. You were personally involved in that?</p> <p>23 <b>A. I was.</b></p> <p>24 Q. Okay. In your opinions in this case,</p> <p>25 you're relying on some other experts, such as</p>

Pages 17 to 20

<p style="text-align: right;">Page 77</p> <p>1 <b>MALHOTRA</b></p> <p>2 latest updates are probably the best information</p> <p>3 we have as of date.</p> <p>4 Whether that makes all of those</p> <p>5 forecasts -- and I think you used the word</p> <p>6 "inaccurate." That's -- it's just we have better</p> <p>7 information today than we had earlier.</p> <p>8 Q. Okay. Your more recent forecasts would</p> <p>9 be more reliable than your first forecast; is that</p> <p>10 fair?</p> <p>11 A. I would say, yes, the most recent</p> <p>12 forecasts are the best picture we would have as of</p> <p>13 date, yes.</p> <p>14 Q. Would it be fair to say that the longer</p> <p>15 the forecast, the less reliable the forecast?</p> <p>16 A. It depends on specific line items and</p> <p>17 assumptions. But the further you get out there,</p> <p>18 the -- there is more uncertainty whether each one</p> <p>19 of those assumptions will play out the way they</p> <p>20 are in the forecast.</p> <p>21 Q. And would you agree that the greater the</p> <p>22 number of assumptions in your model, the more</p> <p>23 uncertainty and potential for unreliability there</p> <p>24 is with the model?</p> <p>25 A. No, because --</p>	<p style="text-align: right;">Page 79</p> <p>1 <b>MALHOTRA</b></p> <p>2 well documented all over about financial advisers,</p> <p>3 how to create projections, look at the historical</p> <p>4 performance.</p> <p>5 So, yeah, that's generally technical in</p> <p>6 nature, but not scientific.</p> <p>7 Q. But so the -- but is there any treatise</p> <p>8 or other publication that you can identify for me</p> <p>9 today that lays out the technical methodology you</p> <p>10 used for the Detroit forecast?</p> <p>11 A. I would say any financial journal that</p> <p>12 you will pick up, from a financial adviser's</p> <p>13 standpoint, has tons of articles written on how to</p> <p>14 build good -- develop reasonable forecasts.</p> <p>15 Q. But can you identify one article,</p> <p>16 sitting here today, that contains the specific</p> <p>17 methodology you used in the Detroit forecast?</p> <p>18 A. I do not recall one off the top of my</p> <p>19 head, no.</p> <p>20 Q. Before the Detroit matter, what was the</p> <p>21 longest period of time you ever did a forecast of</p> <p>22 revenues or expenditures for?</p> <p>23 A. I would say somewhere maybe between five</p> <p>24 and ten years.</p> <p>25 Q. And you've never done -- I think you</p>
<p style="text-align: right;">Page 78</p> <p>1 <b>MALHOTRA</b></p> <p>2 Q. Well, all the other things being held</p> <p>3 constant, do you agree that the more assumptions</p> <p>4 that you have in a model, the greater the</p> <p>5 potential for uncertainty and unreliability?</p> <p>6 A. No.</p> <p>7 Q. Why is that?</p> <p>8 A. Because different assumptions can also</p> <p>9 offset each other.</p> <p>10 Q. Did you rely on any scientific or</p> <p>11 technical literature in creating your forecast?</p> <p>12 A. I'm sorry? What is --</p> <p>13 Q. Well, is there any scientific or</p> <p>14 technical literature that lays out the methodology</p> <p>15 you used in your forecast?</p> <p>16 A. The financial forecast, the way it's</p> <p>17 been developed is how it's generally developed by</p> <p>18 all financial advisory firms.</p> <p>19 Q. But that's not my question. Is there</p> <p>20 any scientific or technical literature you can</p> <p>21 identify for me today that lays out the</p> <p>22 methodology that you used in creating the forecast</p> <p>23 for Detroit?</p> <p>24 A. I do not know of any scientific</p> <p>25 methodology. Technical methodology is generally</p>	<p style="text-align: right;">Page 80</p> <p>1 <b>MALHOTRA</b></p> <p>2 testified you'd never done a forecast for a</p> <p>3 municipality before Detroit; correct?</p> <p>4 A. No, I did not testified to that. I</p> <p>5 testified that I've done it for Detroit Public</p> <p>6 Schools. I've developed a forecast for Detroit</p> <p>7 Public Schools.</p> <p>8 Q. But for an actual city, municipality,</p> <p>9 you've never done a forecast before Detroit's;</p> <p>10 correct?</p> <p>11 A. For a city, that is correct.</p> <p>12 Q. You did some forecasting for the Detroit</p> <p>13 Public Schools?</p> <p>14 A. That's right.</p> <p>15 Q. What was the length of time that you</p> <p>16 forecast for the Detroit Public Schools?</p> <p>17 A. I would have to go back and look. It</p> <p>18 could have been up to five years. It was probably</p> <p>19 somewhere in that neighborhood or shorter. I</p> <p>20 would have to go back and check.</p> <p>21 Q. Are your forecasts that you've created</p> <p>22 in this case based on the business judgment of any</p> <p>23 City officials?</p> <p>24 A. I would say yes.</p> <p>25 Q. And yet you -- which City officials</p>
